Notes to the Condensed Interim Consolidated Financial Statements
Nine Months Ended September 30, 2015

(unaudited, expressed in Canadian dollars unless otherwise noted)

1. Reporting entity

Rio Silver Inc. (the "Company" or "Rio Silver") is listed on the TSX Venture Exchange under the symbol "RYO". It is incorporated in Canada under the Canada Business Corporations Act. The Company's corporate office and principal place of business is 40 University Avenue, Suite 606, Toronto, Canada M5J 1T1. The Company's principal business activity is the acquisition, evaluation and development of mineral properties in the Americas.

2. Basis of Preparation and Summary of Significant Accounting Policies

These condensed interim consolidated financial statements for the nine month period ended September 30, 2015 have been prepared in accordance with IAS34 Interim Financial Reporting.

These condensed interim consolidated financial statements should be read in conjunction with the Company's 2014 annual consolidated financial statements which have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). The condensed interim consolidated financial statements have been prepared using accounting policies consistent with those used in the Company's 2014 annual consolidated financial statements.

These unaudited condensed interim consolidated financial statements for the nine months ended September 30, 2015 were reviewed by the Audit Committee and approved and authorized for issued by the Board of Directors on November 17, 2015.

a) Going Concern

The Company is in the process of exploring and evaluating its mineral properties. On the basis of information to date, it has not yet determined whether these properties contain economically recoverable mineral deposits. The recoverability of amounts shown as mineral exploration properties is entirely dependent on the existence of economically recoverable reserves, securing and maintaining title and beneficial interest, the ability of the Company to obtain the necessary financing to complete development, and future profitable production or alternatively, upon the Company's ability to dispose of its interests on an advantageous basis, all of which are uncertain.

The Company will periodically be required to raise funds to continue operations by funding its working capital and capital expenditure requirements and, although it has been successful in the past, there can be no assurance it will be able to do so in the future on terms satisfactory to the Company. The ability of the Company to arrange such financing in the future will depend in part upon the prevailing capital market conditions as well as on the business performance of the Company. If adequate financing is not available, the Company may be required to relinquish rights to certain of its interests or terminate its operations.

At September 30, 2015, the Company had no revenues, had a working capital deficit of \$627,374 (December 31, 2014 – working capital deficit of \$698,769) had not achieved profitable operations, had accumulated deficit of \$14,140,116 (December 31, 2014 - \$14,004,011) and expects to incur further losses in the development of its business, all of which casts substantial doubt upon the Company's ability to continue as a going concern. The Company will require additional financing in order to conduct its planned work programs on mineral properties, meet its ongoing levels of corporate overhead and discharge its liabilities as they come due.

2. Basis of Preparation and Summary of Significant Accounting Policies (Continued)

a) Going Concern (Continued)

These financial statements have been prepared on a going-concern basis which assumes that the Company will be able to realize assets and discharge liabilities in the normal course of business. Accordingly, these financial statements do not give effect to adjustments, if any, that would be necessary should the Company be unable to continue as a going concern. If the going concern assumption was not used then the adjustments required to report the Company's assets and liabilities on a liquidation basis could be material to these financial statements.

b) Basis of Consolidation

The financial statements of the Company consolidate the accounts of the following companies:

<u>Company</u>	<u>Location</u>	<u>Ownership</u>	<u>Principal Activity</u>
Rio Silver Inc.	Canada		Parent company
Rio Silver Exploration Ltd	Canada	100%	Holding company
Minera Rio Plata S.A.C.	Peru	100%	Exploration company

There were no changes during the current interim period to composition of the Company. The results of the subsidiaries are included in the condensed interim consolidated statement of comprehensive income from the effective date of acquisition. All inter-company transactions, balances, income and expenses are eliminated in full on consolidation.

3. Promissory notes and interest payable

As at September 30, 2015 the Company had promissory notes payable outstanding of \$5,000 (December 31, 2014 - \$5,000). The promissory notes are due on demand and bear interest at an annual rate of 18%. As at September 30, 2015 there was an interest payable balance of \$1,361 (December 31, 2014 - \$691).

4. Related Party Transactions and Key Management Remuneration

The Company defines key management as its Board of Directors, President and Chief Executive Officer and Chief Financial Officer. Remuneration of key management personnel:

6. Stock Options

The Company has adopted an incentive stock option plan for employees, consultants, officers and directors. The number of common shares reserved for issue under the stock option plan may not exceed 10% of the number of issued and outstanding common shares of the Company at any given time. The term of options granted under the stock option plan may not exceed ten years from the date of the grant. The board of directors will determine the vesting period within the exercisable term and options granted to consultants performing investor relations activities shall vest over a minimum of 12 months with no more than ¼ of such options vesting in any 3-month period. The option exercise price, also determined by the board of directors of the Company, may not be less than the lower of: the market price for the common shares at the grant date and \$0.05.

As at September 30, 2015, the Company had 1,928,234 stock options available for issuance (December 31, 2014 – 1,528,234).

Niñobamba and non-core Peruvian properties

The Niñobamba property is located in the Department of Ayacucho, Peru and is owned 100% by the Company's wholly owned Peruvian subsidiary, Minera Rio Plata S.A.C., and is not subject to any royalties or exploration expenditure commitments. In December 2013 the Company entered into an option agreement whereby the optionee can earn a 100% interest in various non-core Peruvian property concessions for total cash consideration of US\$90,000. In January 2015 the option agreement was assigned to a Peruvian subsidiary of a public mining company (The "Optionee"). The Optionee earned 100% of the interest in the optioned concessions by making payments of US \$60,000 against the remaining option payments on January 22, 2015. As part of the option agreement the Company was required to pay the 2014 concession fees and registration fees on the optioned properties.

The option payments were received as follows:

US\$ 10,000 on December 23, 2013 (received \$10,636 CAD)
 US\$ 15,000 on January 10, 2014 (received \$16,350 CAD)

KAN Project, Quebec

On February 6, 2014 the Company completed an agreement with Virginia Mines Inc. (“Virginia”), Altius Resources Inc. (“Altius”), a wholly-owned subsidiary of Altius Minerals Corporation and Les Resources Tectonic Inc. (“Tectonic”) to acquire Rio Silver’s KAN Project.

Rio Silver transferred 100% interest in the Project in consideration for (i) the issuance by Virginia of 3,571 of its common shares to Rio Silver at a deemed price of \$14.00 per share (the “**Virginia Shares**”); (ii) a cash payment equal to \$25,000 paid by Virginia; (iii) a cash payment equal to \$75,000 paid by Altius; (iv) the issuance by Rio Silver of 400,000 common shares to Tectonic (the “**Rio Silver Shares**”); and (iv) a cash payment of \$40,000 paid by Rio Silver to Tectonic.

The Rio Silver Shares issued to Tectonic and cash payment paid by Rio Silver were required under the option agreement (the “**KAN Option Agreement**”) between Rio Silver and Tectonic dated March 2, 2011, pursuant to which Rio Silver had the option to acquire from Tectonic 209 of the mining claims forming part of the KAN property.

As a result of the transaction, Rio Silver is wholly released and forever discharged from the observance and performance of its covenants and agreements in and under the KAN Option Agreement.
